Graduation Date: December 2022

- Organizations: Computer Science Club
- Relevant Coursework: Object Oriented Design and Programming, Web Development, Data Structures, Discrete Math, Computer Architecture, Database Design, and Algorithms.

WORK EXPERIENCE

Starkey Hearing Technologies

Eden Prairie, MN

Software Engineer Intern

June 2022 - Present

- Created dashboard website with useful DevOps information (Angular Frontend, C# .NET Backend) using Azure DevOps API. Used [ngx-charts](#) to display performance test results and build results. Designed and implemented a relational SQL database for logging performance test results.
- Created a website to easily move documents between Google Cloud Firestore Environments. (Angular Frontend, Node Backend).
- Contributed to an expansive ASP.NET Web API using the mediator design pattern to provide implementations for both GCP and AWS.

Elliott Design Build Inc.

Edina, MN

Project Manager

June 2018 - August 2021

- Managed a crew of 15 landscapers to efficiently remodel/install commercial and residential landscapes/hardscapes.
- Communicated professionally and stayed open minded to achieve good client relationships.
- Strategized daily to efficiently manage building materials and execute multiple projects simultaneously.
- Successfully completed over 20 full scale landscape and hardscape remodels for both commercial and residential clients.
